2027 Level III/Level IV Combined RPA Review

January RPA Review: Held virtually via Zoom.
March RPA Review: Held in-person at the TAAD Office.

Registrants should be familiar with the outline and should ensure they have up to date course materials for review. Students attending should be aware that this is a review session, not a primary instruction of materials. The instructor will cover basic methodologies, definitions, etc. as outlined in course materials, but will not "reteach" the course. Time will be provided for working on students' areas of specific concern. An optional exam will help prepare registrants for the TDLR exam.
