Announcement: You’re invited to attend the inaugural meeting of the TAAD Chapter of IAAO!

The meeting, which will feature the election of and swearing in of officers, will be held Wednesday morning, February 18, at 8:30 am. IAAO President Martin Marshall will be present to swear in the new officers.

In addition, chapter bylaws will be presented for adoption, and proposed chapter projects will be outlined.

Registration forms for chapter membership will be available on TAAD’s website. Annual dues are $20 per member. To qualify for membership, an individual must be a member of both TAAD and IAAO.

The Texas Association of Appraisal Districts Chapter of the International Association of Assessing Officers (informally called The IAAO Texas Chapter) was talked about for years but had never materialized. That changed with TAAD’s chapter application submission in July 2014 and its subsequent approval by the IAAO Executive Board.

“I encourage each member appraisal district and its employees to become a member of the TAAD Chapter of IAAO,” said Steering Committee Chair Rick Kuehler. “Many of your employees already hold an IAAO designation, and many are working toward designations. Texas has six appraisal districts who have obtained the IAAO Certificate of Excellence in Assessment Administration, and a goal of the chapter is to get more Texas Appraisal Districts to obtain that coveted recognition. Your membership in the TAAD Chapter of IAAO will greatly benefit your district and your employees.”

"The percentage of all-cash purchases has steadily fallen since reaching a high of more than 46 percent. The current 35 percent level remains high by historical standards. Before the Great Recession, the market’s share of all-cash purchases was closer to a quarter than a third. Texas is shown at 31 percent. http://bit.ly/12vQzxr

Pat Mertz Esswein, From Kiplinger’s Personal Finance, January 2015
"Over the past year, home prices rose in 246 of the 277 cities tracked by Clear Capital, a provider of real estate data and analysis. But in two-thirds of the cities with price increases, the gains were lower than they were the year before. The slowdown reflects a softer market as investors throttled back and first-time buyers encountered credit headwinds.” http://bit.ly/1uqlIsH

"Five reasons housing may be headed for trouble.”
1. The Fed is no longer keeping mortgage rates down
2. Prices have been rising for more than two years now
3. Some loan limitations are being softened
4. A key banking safeguard has been eroded
5. Default rates are creeping back up.” http://bit.ly/1DBkw03

"ICSC Shopping Centers Today reports: The issue of quality versus quantity has been consuming industry experts as the retail sector continues to see a lack of quality properties coupled with an abundance of liquidity. According to leading commercial real estate data and analytics firm Real Capital Analytics (RCA) cap rates for malls dropped to nearly six percent in Q2 ’14, down from eight percent in 2010, and strip centers to seven percent, down from 8.5 percent." http://bit.ly/1qp4mMc

"Marcus & Millichap, a leading commercial real estate investment services firm with offices throughout the United States and Canada, reports that commercial investor sentiment remains near an all-time high. The firm’s quarterly commercial Investor Sentiment Survey Index rose three points to 179 in the third quarter, up slightly from first quarter 2014.” http://bit.ly/1wgvXFJ

"Housing starts — including apartments and other multifamily dwellings — fell 1.6 percent in November but have held above the one-million mark for three consecutive months, the Commerce Department said.”

(Houston and Austin are mentioned and is interesting reading.)
"Redfin gives its Hot Homes algorithm a whirl, looking across its 17-market coverage area at home sales by the number of days on market, the sales price over list price, and which had bidding wars. Redfin’s proprietary algorithm analyzes home attributes, local market conditions and user behavior to identify homes with a high likelihood of getting snapped up within two weeks.” http://bit.ly/1GQ14ce

Patrick Clark, www.businessweek.com, December 16, 2014
"Seventy-four percent of fraud cases reported to LexisNexis Risk Solutions last year included a falsified application, according to an annual report (PDF) on mortgage fraud, up from 61 percent in 2011. (The rate was 70 percent in 2008). Falsified applications can include borrowers lying about their income, employment history, or whether they’re buying a first or second home—all factors that might make it easier to get a loan or affect the interest rates they are offered.” http://bit.ly/1GQ14ce

"Gov. Andrew Cuomo’s administration said Wednesday it would prohibit hydraulic fracturing statewide, citing health concerns and calling the economic benefits to drilling in New York state limited. The long-awaited decision seals off about 12 million acres of the Marcellus Shale, an underground rock formation with natural-gas reserves that have helped fuel an energy production boom in Pennsylvania, West Virginia and Ohio.”

This is a long but interesting story about the changing oil prices and possible affects upon the Houston area commercial market. http://bit.ly/1xseE62

“All U.S. hotel segments are expected to enjoy strong performance over the foreseeable future with revenue growth and high room occupancy giving innkeepers the pricing power to boost rates as travel demand increases, according to a pair of recent reports on the lodging industry’s prospects for 2015.” http://bit.ly/IJ8mSnn

“Yearly growth in home prices across the U.S. continued to moderate early in the fourth quarter, suggesting the housing market may be settling into a more sustainable recovery. Prices nationwide increased 4.6 percent in the year ended in October, according to the Standard & Poor’s/Case-Shiller home-price report.”

“Home prices have returned to new highs in eight of the 40 largest metropolitan areas in the U.S. Nationally, prices are down 10.2 percent from their June 2006 peak, according to figures released this week by Black Knight Financial Services, a real-estate data firm. Of the eight cities where prices have pushed to new highs, half of those record-setting markets are in Texas. Prices in Austin, Dallas and Houston have risen between seven percent and nine percent for the year through October, while prices in San Antonio are up 4.7 percent. Those figures aren’t adjusted for inflation.” http://on.wsj.com/1xfTwi9

Texas Association of Realtors, January 5, 2015

“In the midst of concerns about falling oil prices dragging down the Texas economy and, by default, its housing market, the Texas Association of Realtors released a report today saying that sales volume increased nine percent in 2014 for homes priced at $1 million or more. In terms of volume, Houston and Austin led the way with almost two percent of its home sales coming in at $1 million or more.” http://bit.ly/is2yoNq

      Nonmembers: $550
TDLR credit: 30 hours
The Assessment of Personal Property is designed to provide the students with an understanding and working knowledge of the procedures and techniques required to assess personal property. This course concentrates on the skills necessary for listing, appraising and assessing the market value of properties using the three approaches to value: the cost approach, the income approach and the sales comparison approach. The Assessment of Personal Property utilizes lectures, classroom discussion, and homework problems to emphasize the main concepts and procedures taught in the course. The ten sections of the course present a broad mixture of theory and practical application. Exercises are included so the student can test and reinforce new skills. Time is allotted for questions and answers throughout the course. Students are encouraged to participate actively.

Income, Population Growth Spur Texas Luxury Home Sales

AUSTIN (Texas Association of Realtors) —

Strong growth in luxury home sales continued in 2014 throughout Texas’ largest markets, according to the 2015 Texas Luxury Home Sales Report released yesterday by the Texas Association of Realtors.

The report cited sales volume increases from 9 percent up to more than 25 percent for homes sold at $1 million or more in markets including Austin, Dallas-Fort Worth, Houston and San Antonio.

"The overall economic growth and prosperity in Texas have contributed heavily to the luxury market, making it one of the strongest segments of housing in Texas in 2014," said Real Estate Center Research Economist Dr. Jim Gaines.

Gaines said the state also benefited from people moving here from places like California, where a modest two-bedroom condo can be valued at $1 million or more.

"Those people sell their home in California, move to Texas and realize their money goes much further in our market," Gaines said. "Thus, even if they don’t have an income typical of a luxury homeowner, they have assets to purchase luxury homes and are stimulating that market.”

In terms of volume, the Houston area had the largest number of luxury home sales in Texas, with homes valued at $1 million or more representing almost 2 percent of overall home sales. Luxury sales were up 13 percent over the prior year, which significantly outpaced the 2 percent year-over-year growth seen in volume for the total market. Active listings for luxury homes in Houston were up 19.7 percent over the previous year.

Austin showed similar trends, with luxury homes representing 2 percent of the overall housing market and increasing 9 percent over the previous year.

In Dallas-Fort Worth, luxury sales represented a smaller percentage of the market at 1.2 percent, but the sales volume was the second highest in the state and increased by double digits, up 15 percent over the previous year, when overall home sales were flat.

The most aggressive growth in luxury sales was in San Antonio, where homes valued at $1 million or more represented less than 1 percent of the market, but volume increased 26 percent over 2013.

Bylaws Amendments To Be Proposed At Delegate Assembly

Proposed amendment to bylaws regarding composition of Nominations Committee

Background information: As an experiment in committee composition, the 2013 and 2014 Nominations Committee has been made up of past presidents. The experience of serving the association that past presidents bring to the committee is critical to choosing leaders for the association’s future.

ARTICLE VIII
COMMITTEES

Section 8: Nominations Committee.

a. The Nominations Committee shall be composed of the five most recent past presidents of the Association, plus the chairperson. The chairperson shall be chosen from among all members of the Association’s past presidents. In the event one or more of these past presidents is not available to serve, the committee chair may appoint substitute members from among the Association’s past presidents, or may choose to serve with fewer than five, but no less than four, committee members. The Nominations Committee shall be composed of members with due consideration given to representation by member appraisal district size and geographic location. The President shall present members to the Executive Board for approval.

b. At least forty-five days prior to the Delegate Assembly meeting at the annual meeting of the Association, the Nominations Committee shall meet and shall nominate one person for each office to be filled and report the Committee’s nominations to the President and designated Executive Director.

c. Preparation of the slate of nomination shall comply with the following regulations:
   1. The designated Executive Director shall transmit through the Association’s publicaition to the member appraisal districts the slate of nominees for offices to be filled as presented by the Nominations Committee together with pertinent biographical information for each nominee at least thirty days prior to the Delegate Assembly meeting at the annual meeting of the Association.
   2. In the event a nominee becomes unable to serve, the Nominations Committee, at the call of its Chairperson, shall select an alternate candidate and transmit to the member appraisal districts its amended report as soon as feasible but in no case later than a time immediately prior to the opening of the Delegate Assembly meeting at the annual meeting.
   3. Member appraisal districts shall have the privilege of nominating, in accordance with these bylaws, candidates for office and expiring terms or vacancies of the Executive Board.
   4. An official ballot shall be prepared prior to the opening session of the Delegate Assembly listing the names of all the nominees for the office position for which they have been nominated both by the Nominations Committee and by member appraisal districts.
   5. No individual shall be a candidate for more than one office.
Proposed amendment to bylaws regarding composition of the Legislative Committee

BACKGROUND INFO: At the recent Strategic Planning session, attendees recommended this change regarding the composition of the Legislative Committee. The change will make for a balanced committee with representation from both large and small districts.

Section 6: Legislative Committee. The Legislative Committee shall:

a. Review proposed or filed legislation for impact to appraisal district operations;

b. Propose a legislative program to the Executive Board prior to a regular legislative session;

c. Propose a position for the Association, with approval by the Executive Board; and

d. Present the Association’s position to the Texas Legislature.

e. The Legislative Committee shall have two representatives from the Metropolitan Council of Appraisal Districts and two representatives from the Texas Rural Chief Appraisers, designated by agreement of the Association president and the Legislative Committee chair.

4(c) ACTION ITEM: Proposed bylaws change regarding attendance at TAAD Executive Board meetings and committee meetings

BACKGROUND INFO: At the recent Strategic Planning session, attendees recommended these changes regarding committee and board meeting attendance. Attendance at meetings is critical.

ARTICLE VI
EXECUTIVE BOARD

Section 3: Removal. Members of the Executive Board who are absent from three two or more consecutive regularly scheduled meetings during a calendar year may be subject to removal from the Executive Board by the majority vote of the remaining members. Any Executive Board member may be removed by a two-thirds vote of the total Executive Board when in its judgment the best interest of the Association would be served by removal.

ARTICLE VIII
COMMITTEES

d. A member of the Budget, Conference, Education or Legislative Committee who is absent, without notice, from two consecutive meetings during a calendar year may will be removed be subject to removal from the committee, by the majority vote of the remaining members. A committee member may be reinstated by a two-thirds vote of the committee when in its judgment the best interest of the Association would be served by reinstatement.

e. A member of the Bylaws, Membership or Nominations Committee who is absent from one or more meetings or conference calls during a calendar year will be removed from the committee. A committee member may be reinstated by a two-thirds vote of the committee when in its judgment the best interest of the Association would be served by reinstatement.
