

VALUATION OF MOBILE HOME PARKS

(IN-PERSON ONLY)

This one-day workshop is designed to provide historical and current data to assist in the valuation of manufactured home parks. The purpose of the workshop is to provide guidance and suggestions on the process of data analysis and valuation of manufactured home parks or communities.

Information from various sources and areas of the United States are used to help establish processes and procedures. Some of the sources include links to the FannieMae database to find properties in your jurisdiction that have FannieMae loans and some appraisal information associated with the loan. Additional updated expense ratios and forms for collecting property characteristics for valuation purposes. All three approaches to value will be discussed and examples given.
