

EXHIBITORS

BIS Consultants

<https://bisconsultants.com/>

Most local government agencies can't keep up with all their technology needs, which leaves them feeling frustrated and defeated. At BIS Consultants, our team helps you manage your IT, GIS, and website needs effectively so you can stop wasting time and start feeling more confident in your technology.

Esri Canada Ltd

www.esri.ca/en-ca/home

Esri Canada is a private Canadian-owned company founded in 1984 that provides world-class enterprise GIS solutions. Headquartered in Toronto, we have 15 offices across the country serving 12,000+ customers.

Government Capital Corporation

<https://www.govcap.com/>

GSA Corp

<https://gsacorp.io/>

GSA is a full suite of appraisal and collections solutions that are innovative, flexible, and built to last forever. Our mission is simple. To provide innovative Assessment and Collections software products with unsurpassed levels of efficiency, accuracy and client support for our government clients.

Heyman Advisors

<https://heymanadvisors.com/>

Heyman Advisors is an independent vendor-neutral advisory firm serving appraisal districts and assessment offices. We help clients evaluate technology, vendor agreements, procurement, and operations to reduce costs, save staff time, and make better-informed decisions. With deep assessment-industry experience, we work exclusively on the client's side of the table—never as a reseller or vendor representative.

HUB International

<https://www.hubinternational.com/>

HUB International is one of the largest insurance brokerage and financial services firms in North America, offering a full range of risk management, commercial insurance, personal insurance, and employee benefits solutions. HUB International helps municipalities and public sector employers navigate the unique challenges of government group benefits, including managing large, diverse workforces, tight budget cycles, and public accountability. HUB works with municipalities to design, market, and administer employee benefit programs covering medical, dental, vision, life, disability, and voluntary benefits, with a focus on cost containment and long-term plan sustainability.

SILVER Donor

<https://www.lsejlaw.com/>

Law firm representing appraisal districts and other units of local government.

McCreary Veselka Bragg & Allen, PC

<https://mvbalaw.com/>

NCTech

<https://nctechimaging.com/>

NCTech, a leading provider of affordable, high-definition 360° street-level imagery, simplifies access to precise geospatial data. By rapidly collecting, processing, and delivering street-level imagery, 3D LiDAR data, and extracted insights, we empower assessors, public works managers, and GIS teams to inspect ground-level details from their desktops—improving efficiency and reducing costly site visits.

Perdue Brandon Fielder Collins & Mott, LLP

DIAMOND Donor

<https://pbfc.com/>

Perdue Brandon Fielder Collins & Mott LLP is one of the oldest and largest law firms in Texas focused on the collection of delinquent government receivables, school funding services and appraisal district representation. Established in Amarillo, Texas in 1970, Perdue Brandon was founded by Howard Perdue and Larry Brandon. Over the years, the Firm has grown to 15 offices throughout Texas and multiple satellite locations in Texas, Florida and Oklahoma. Currently, we have clients in nine states. Today, our clients include cities, counties, school districts, special districts, appraisal districts and toll road authorities.

Pritchard & Abbott, Inc.

GOLD Donor

<https://www.pandai.com/>

For over 100 years, our company has efficiently provided state and local taxing authorities reputable and professional property tax appraisals of minerals, heavy industry, utilities, personal property, and real estate throughout Texas. Additionally, our progressive IS department proudly offers and supports an array of software and hardware solutions for local property tax administration and collection.

Specialized Tax Recovery

<https://www.specializedtaxrecovery.com/>

STR is an aircraft compliance and appraisal partner built for Texas appraisal districts. We combine powerful aviation data with experienced hands-on support to help CADs find non-filing aircraft, determine situs, establish defensible market values, manage cases, and successfully navigate taxpayer protests and ARB hearings.

The Master's Touch, LLC

<https://www.themastertouch.com/>

Printing and Mail Services

TMI, LLC / MAP Tracker

<https://www.tmigo.com/>

Tech Management Integration (TMI) provides innovative software solutions built specifically for Texas appraisal districts. Our flagship platform, MAP Tracker, simplifies MAP Review preparation by helping districts organize documentation, track compliance requirements, manage deadlines, and maintain continuity year after year. Smart Office Hub extends that organization beyond the MAP Review, giving appraisal districts a centralized way to manage office tasks, procedures, responsibilities, and important deadlines. Created with firsthand appraisal district and MAP Review experience, our solutions are designed to reduce administrative burden, strengthen compliance, and give appraisal district teams greater confidence and continuity. Compliance. Continuity. Confidence.

TMLIRP

<https://tmlirp.org/>

We provide sustainable economic value, we build and maintain meaningful long-term relationships with our Members, and we act ethically, sustainably, and consistent with our internal Mission Statement: The Mission of the Texas Municipal League Intergovernmental Risk Pool is to facilitate and empower a partnership amongst Texas municipalities (and other eligible local governments) by providing a stable and economical source of risk financing and loss prevention services.

True Prodigy

DIAMOND Donor

<https://trueprodigy.com/>

True Prodigy is quickly transforming the property appraisal market in Texas. Since we launched Prodigy Appraisal, we've provided innovative solutions, client-centric support, and an unparalleled commitment to improving the work processes of our customers. We do this by leveraging cloud-based environments that allow users to work securely, from anywhere.

TrueRoll

<https://www.trueroll.io/>

TrueRoll helps assessment offices do their work—easier. TrueRoll modernizes assessment operations by bringing automation, clarity, and expert support to the complex processes behind homestead administration and broader Property Tax Administration needs. A six-time GovTech 100 honoree, TrueRoll delivers accurate data, automated workflows, and expert guidance that promote fairness, transparency, and efficiency. As the AI-powered system of action for assessment offices, TrueRoll helps counties reduce staff burden, improve compliance, and protect essential community revenue.

Valuebase

<https://www.valuebase.ai/>

Valuebase is an AI property valuation startup founded to bridge the gap between advanced academic research and practical mass appraisal applications. Our mission is to empower appraisers and assessors with AI modeling techniques that deliver superior accuracy and equity in property valuation. The company originated from academic research in mass

appraisal methodology, with our founding team specializing in statistical modeling for property tax. Recognizing the need to translate theoretical advances into practical solutions, we left academic research to develop real-world applications of AI that address the complex challenges faced by modern assessment offices. Valuebase has raised \$8 million in venture capital funding from investors, including Sam Altman (creator of ChatGPT). This strategic partnership provides Valuebase with access to cutting-edge artificial intelligence capabilities. Our multidisciplinary team comprises former assessors with decades of field experience, mass appraisal researchers with deep technical expertise, software engineers skilled in scalable system development, and data scientists specializing in machine learning applications. This diverse expertise enables us to develop solutions that blend statistics with appraisal. Since our commercial launch in January 2023, Valuebase has rapidly expanded to serve over 40 taxing jurisdictions across the United States and Canada. Our client list spans diverse geographic and demographic contexts, from rural jurisdictions with 5,000 residents to state-level implementations such as state-level oversight agencies. This breadth of experience demonstrates our platform's versatility and scalability across varying operational requirements and market conditions.

Wardlaw Appraisal Group, LLC

BRONZE Donor

<https://www.wardlawappraisal.com/>

For over thirty-five years, Wardlaw Appraisal Group, LC has offered exceptional mineral, utility, and industrial appraisals to Texas CADs. Our commitment to providing the most comprehensive, fair, and accurate appraisal services at the most affordable rates has helped us earn a reputation for outstanding customer service.

Woolpert

<https://woolpert.com/>

Woolpert is a multidisciplinary firm delivering comprehensive services across a wide range of industries and applications — from project inception to completion. With over 3,000 employees in offices around the world, we blend the power of global resources with the precision of local expertise. Backed by more than a century of experience, Woolpert continues to evolve, leveraging cutting-edge technology and time-tested design principles to solve our clients' most complex challenges.
